DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 24, 27, and 30 (and therefore dependent claims 25, 26, 28-29, and 31) are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Specifically, claim 24 discloses the limitation “a semiconductor optical waveguide for an optical signal and traveling-wave electrodes for an electrical signal”. However, there is no mention of a semiconductor optical waveguide or traveling-wave electrodes within the disclosure of the invention, therefore these claims fail to comply with the written description requirement. Additionally, claims 27 and 30 disclose the limitation “the first electrical signal has a fundamental frequency or one of the subharmonic frequencies of the second electrical signal”. However, there is no mention of the first electrical signal having one of the subharmonic frequencies of the second electrical signal within the disclosure of the invention, therefore these claims fail to comply with the written description requirement.

Claims 25, 26, 28-29, and 31 are rejected since they inherit the failure to comply with the written description requirement of the claims from which they depend.

Response to Arguments

Applicant's arguments with respect to claims 24-27 have been considered but are moot in view of the new ground(s) of rejection under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement as shown above.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
